

Important Facts

- Inner ear disorders are the leading cause of falls
- Over 69 million people suffer from vestibular dysfunction
- 33% of all seniors will fall this year
- Effective treatments exist for vestibular disorders

WSR, Inc. Pasadena, CA

Since its founding in 1986, Western Systems Research, Inc. (WSR) has established itself in the design, development, and marketing of neuro-medical devices. WSR maintains a strong alliance with academic research and national committees in medical devices. WSR President Dennis P. O'Leary is a Professor of Medicine at the USC Keck School of Medicine, Los Angeles, California. He is a frequent NIH grant reviewer and a consultant for NASA. CEO Linda Davis-O'Leary has extensive background in both clinical research and direct clinical application of vestibular disorders. WSR's goal is to provide state-of-the-art medical systems to assist with the diagnosis, treatment plan, and rehabilitation of patients with balance and vestibular disorders.

the best diagnosis for your patients,
the profitable solution for you.

Enhance the value of the VAT test
with the added advantages of the ENG
Plus:

- Ability to evaluate all 4 Oculomotor systems
- Sampling Rate: 100/sec
- Immediate test results
- Additional per test revenue

Comprehensive | Easy to Use | Affordable

Offering a Solution

It costs Medicare, on average, \$19,440 when a senior falls. The American Geriatric Society and Medicare together state that 85% of senior falls occur as a result of some type of vestibular issue.

As a result, doctors are being encouraged to screen all seniors for vestibular disorders in an effort to reduce falls with their senior patients.

ENGplus™ Electronystagmography

What the ENGplus™ offers you:

Complete ENG battery of tests

- Oculomotor
- Gaze
- Positional & Hallpike
- Caloric

Sampling Rate: 100/sec

- Provides the most accurate measure of saccades

Resolution of Eye Movement

- 0.5 deg

Range of Eye Position

- + 30 deg horizontal & vertical

Oculomotor Stimulus

- Green laser diode technology

Self Calibrating

- Always calibrated to 20 deg. eye to stimulus

Automatically Computes Test Results

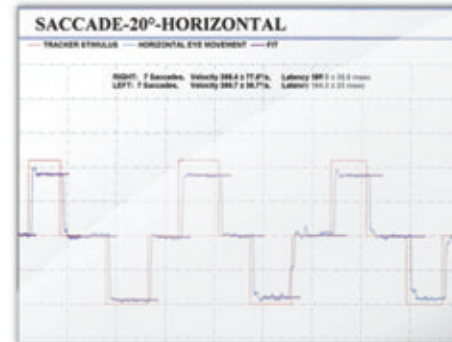

- Software selects the best segment for analysis

Meets the Current ANSI Standards

HIPAA Compliant

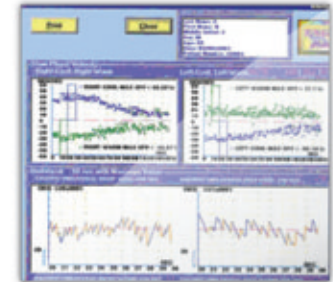

Compact & portable

Saccade Test

Smooth Pursuit Test

Caloric Composite Test

The VAT® ENGplus™ Combo Includes

- Laptop
- Full Color Printer
- Combo Control Box & Oculotrak®
- Head Trap/Preamp/Electrode Harness
- Box of Duotrode Electrodes
- Power Supply with Power Cord
- Pack of Head Pad Covers
- USB cable
- System Training
- VAT®/ENGplus™ Manual
- Reference Manual
- VAT® Software
- ENGplus™ Software
- VAT® Training CD
- Starter Supply Kit
